

Packaging & Labeling Notice

A product-appearance disclosure from Applied Science Labs regarding the VA88™ product line.

Effective July 13, 2026 · Applies to all VA88™ units currently shipping · Document ASL-NOTICE-PKG-001, Rev. A

1 — PURPOSE OF THIS NOTICE

Applied Science Labs is currently rolling out updated packaging and label designs across the VA88™ product line. As a result, the bottle, label, or carton you receive may differ in appearance from the product images shown on our website (appliedsciencelabs.co) and in our marketing materials.

This difference is expected during the transition. It does **not** indicate a counterfeit, tampered, expired, or incorrect product. You have received genuine VA88™ manufactured by Applied Science Labs.

2 — WHAT HAS NOT CHANGED

Only the outward packaging and label artwork are being updated. The product itself is unchanged across every packaging version:

Formulation & Active Ingredients	Identical — the same plant-derived, minimum-risk formula.
Concentration & Net Contents	Identical to the size ordered (e.g., 1 Gallon / 128 oz, or 32 oz).
Directions for Use	Identical — apply as stated on the product label.
Regulatory Classification	Identical — EPA FIFRA Section 25(b) minimum-risk pesticide.
Manufacturer	Applied Science Labs — unchanged.

3 — HOW TO VERIFY YOUR PRODUCT

If you would like to confirm you received the correct item, check that:

- ✓ The product name reads **VA88™**.
- ✓ The net contents match the size you ordered.
- ✓ The label lists the VA88™ directions for use and active ingredients.

QUESTIONS OR CONCERNS

Our team is glad to confirm the authenticity of any VA88™ unit. Email sales@appliedsciencelabs.co, call **619.825.2121**, or visit appliedsciencelabs.co/guarantee. Every order is backed by our 30-Day Satisfaction Guarantee — if anything about your order isn't right, we'll make it right.

Applied Science Labs stands behind every VA88™ unit we ship. Thank you for choosing engineered, minimum-risk pest control.
